

MISS CLAUDIA & PORNORAMA

airport

Especially but not only for the pleasure of those who couldn't await the first full-length album after having heard their 2 EPs MISS CLAUDIA & PORNORAMA proudly present "airport". Wonderful chanteuse Miss Claudia surrounded by her Danish lounge geniuses takes us on an excursion to the international jet set. Rio, the Caribbean, Nepal – Miss Claudia and her men feel home everywhere. With 13 titles "airport" proves what Pornorama stands for since playing hundreds of live shows so far: Their 60s/70s retro-sound has landed in our presence without any jet lag. Release seat-belts.

With organ, vibraphone and brass this jazz band's equipment is kept classical, but for the soundmix also different exponents of modern music genres like the Concorde Music Club from Paris collaborated in the work. Around Miss Claudia's voluptuous voice a timeless clubsound arises. Its spectrum reaches from intimate duets with performance artist mastermind JJ Jones (Der Plan, Fuzzy Love), e.g. Aznavour's "I love you song", to easy-going and passionate pieces like "In the Caribbean" or Armando Trovaioli's "Il Profeta", the second cover version of the album.

The stylish presentation is completed by a digipack designed in unique skandinavian coolness.
